[REDACTED]

[REDACTED] It was odd- particularly tonight. The men could not have been more calm and professional but it was notable- and the woman from the airlines kept saying, this has never happened before (which wasn't comforting:)). Security here is omnipresent and thorough which I hope translates into effective. Please don't worry- it was just odd and I wanted to raise as a fyi.

Strange isn't it? Because it happened in and out of [REDACTED] And they looked very serious tonight. The young man was upset- he clearly thought it was premature (even after awhile) to allow me to pass thru. Something he saw on the screen? All my travel given my age and sex? Or a less savoury person with the same name??

Subject: Random fyi

Hello my two favorite people who work at the state department- I was delayed and stopped at [redacted] coming into [redacted] on [redacted] and [redacted] leaving [redacted] (on my flight on the ground). On [redacted] it took me probably 5 minutes to clear through (everyone else went through while I waited) and tonight it took much longer. People were called out and conferrals happened in rapid Arabic while the then gathered stared at the screen with my data on it. One of the men said I may need to answer a few Qs, I said of course. More conferrals. Ultimately, I didn't after the senior man pressed a button that clearly removed whatever was troubling the first few. (I had visions of having to call the US Embassy). Strange though isn't it? Anything I should be concerned abt/we should try to fix?
